

We are pleased to announce the release of version 5.03 of the Beacon Product Suite.

Version 5.03 Release Notes

Beacon Suite Updates

- New API available for Employee View
- Upload your photo to Beacon
- Updates to increase performance

Beacon Dashboard Updates

- Filter cards on your Beacon Dashboard by multiple Admin Codes

New Card:

- Current POTS Orders by Purchasing Agent—Displays the count of current outstanding POTS orders by Purchasing Agent

Beacon HR Updates

- Stay informed about Personnel Actions using the enhanced NOAC module
- Updates to FPS download
- Improved handling of employees who convert from contractors to FTEs to reduce duplicate employee records
- Resolved formatting issue with the Tour of Duty column on Front Position List

Beacon Finance Updates

- View and report on your transaction data using the new and improved Display Transaction screen!
- Enhanced Global Search—Search on dollar amounts for a specific dollar type in combination with OC Code, CAN, Vendor, and Requestor
- Manage your users—we've made a fix to improve the process for adding users who were previously deleted
