

We are pleased to announce the release of version 6.03.0000 of the Beacon Product Suite.

## Version 6.03.0000 Release Notes

### Beacon Dashboard Updates :

- New Card! “Views Containing Account” — shows all views that contain a given account.
- New Card! “Planned NTE prior to Official NTE dates” — shows both Planned NTE dates as well as Official NTE dates.
- New Card! “Average Monthly Funds vs Spending (Budget Ceiling )” — shows a line graph of Average Monthly Funds vs Spending for both Allocations and Budget Ceiling funding types.
- The Tickler card can now track upcoming planned SAC code changes, in addition to the other items it tracks.

### Beacon HR Updates:

- New Report! Accessions and Departures Multi-Year Report — shows all accessions and departures over a user-defined time range, such as 10/01/2007 to 09/30/2018.
- Improved pagination control on Positions list page allows you to jump directly to a page by entering a value in the page number box.
- Notifications screen now allows you to acknowledge multiple notifications at once.
- Fixed formatting of the PD# field to maintain leading zeroes.

### Beacon Finance Updates:

- Improved saved searches functionality on Transaction screen.
- Export to Excel on Transactions page now maintains maintain sort order seen in the Beacon Finance GUI.
