netcomm

We are pleased to announce the release of version 6.04.0000 of the Beacon Product Suite.

Version 6.04.0000 Release Notes

Beacon Dashboard Updates :

- New Card! "Approaching Date" — Users can now track Last and Next Four Year Review date along with many other date fields.
- Global search has been updated — Users with appropriate access permissions can click on the search results.
- Grid cards can now be exported to Excel.
- The Visa Expiration chart and Tickler chart now incorporate the new "Visa Status" field, to show only Active visa records.

Beacon HR Updates:

- Improved Employee Recognition Award form — Users can now enter and modify Proposed Effective Date and Contact AO email fields.
- Supervisory Relationships will now be automatically updated from Current to Past when the supervisor or direct report position departs.
- The GS and Title-42 pay scales have been updated with the new values for 2018.
- The SCD Date Discrepancy Label was updated for clarity.
- Users with System Administrator access can now delete Official NED sourced positions.

Beacon Finance Updates:

- Transaction screen now maintains UDP filters properly while flagging transactions.
- Manage budgets screen now allows greater flexibility when assigning parents to budgets.
- Beacon Finance now properly reflects changes to name and AD name when changes are made in NED.
