

We are pleased to announce the release of version 6.05.0000 of the Beacon Product Suite.

Version 6.05.0000 Release Notes

Beacon Dashboard Updates :

- Pro tips has been revamped to be more useful. Check out entries you may have missed, and get the most out of Beacon.
- New Card! “POTS Orders Approved But Not Yet Ordered”. Keep track of upcoming orders that are approved but not yet placed.
- New Card! “POTS Order Actual Differential”. Identify POTS orders that differ in actual cost from the approved amount.
- New Card! “Average Days to Order Placement”. Improve your ordering efficiency by tracking how long it takes to complete orders after approval in POTS.
- Current FY POTS Orders by PA / CCH / Requester card can now track the tracking the number of orders by CCH or Requester in addition to Purchasing Agent.

Beacon HR Updates:

- Position screen now allows you to load with all columns and toggle the “Official” flag to True.
- HR Training screen now loads properly when course date is null.

Beacon Finance Updates:

- Improved interface and performance for Pending Purchases screen.
- Assignment and modification of view rights/permissions (for users or groups) improved to be more consistent.
- Adjust Budget screen now properly exports all grid contents to excel.

Beacon FLOW Updates:

- Added workflow review validation process to streamline package completion speed and success.
